Subject: Annual Rate Increase and Amendment to Franchise Agreement for Recology

Brisbane for Solid Waste Services

Date: Meeting of June 2, 2016

**Purpose:** To ensure solid waste is disposed of in a proper and environmentally effective

fashion.

**Recommendation:** Acknowledge rate increase for solid waste services effective July 1, 2016 and authorize the Mayor to execute Amendment No. 1 to the Franchise Agreement with Recology Brisbane, for the collection and disposal of recyclable materials, organic materials, and solid waste in the City of Brisbane.

**Background:** The City of Brisbane currently holds a franchise agreement with Recology in Zone 3. This agreement was approved effective November 2014. Services under this agreement include commercial solid waste removal services, as well as providing service to City Facilities (Corporation Yard) and assisting with litter clean up along public

The Franchise Agreement with the Recology provides for annual adjustment of rates for customers in Zone 3. Section 6.2 of the Agreement provides for an adjustment based on a percentage amount equal to the Refuse Rate Index (RRI) calculated based on the following table:

Table 1. Refuse Rate Index

| Cost Category             | Weighting | Source/Index                            |
|---------------------------|-----------|-----------------------------------------|
| Fixed Labor               | 0.60      | As per Collective Bargaining Agreements |
| Variable/Processing Costs | 0.25      | CPI(U)                                  |
| Biodiesel Fuel            | 0.05      | Fuel Index (Total G-NGV1 Charge)        |
| Total:                    | 0.90      |                                         |

For example, if the annual percentage change is 3.0% for CPI(U), 9.0% for the Fuel Index, and 4.0% under the CBAs, then the RRI Adjustment Percentage equals 3.60% ( =  $(.60 \times 4.0\%) + (.25 \times 3.0\%) + (.05 \times 9.0\%)$ ).

The agreements provide that rate increase requests be submitted by March 31st and the City act on the requests by June 30th of each year.

**<u>Discussion:</u>** On March 11, 2016, Recology submitted the attached Notice of Intent to adjust the current rates for the City of Brisbane. Based on the RRI formula in Section 6.2 as noted above, the proposed rate increase is 2.31%.

Recology also noted that actual services provided under Section 5.10, Service to City Facilities, has changed over the past year. Recology noted they have been providing more services than what is currently identified under Exhibit C and are requesting to amend the current agreement to clarify these additional services to the Corporation Yard, which are provided at no cost to the City.

On May 19, 2016, the Subcommittee met to discuss the proposed increases and amendment to the agreement. The Subcommittee agreed that this proposal was in line with what is permitted by the franchise agreement and agreed to recommend approval of the attached proposed rate increases and to the amendment to the franchise agreement to the City Council. For the rate increases, the agreement provides that the City act on the rate increase notice of intent by June 30. Representatives of Recology will attend the Council meeting to answer any questions.

**<u>Fiscal Impact:</u>** Based on these rates, the increase for a commercial 2-yard bin would be \$13.47 per month, or \$161.64 per year for Recology customers. The amendment to the agreement has no fiscal impact to the City.

Measure of Success: Is solid waste removal able to continue efficiently for the community?

Re: Annual franchise fee and notice of intent to modify rates based refuse rate index

Dear Mr. Holstine:

The purpose of this letter is to communicate our annual franchise fee payment and provide notice of Recology's intent to modify rates based on the refuse rate index. The franchise fee payment will be for the 13 months ending December 31, 2015 and totals \$14,879.38 or 14% of gross billings of \$106,281.30. The rate adjustment has been calculated in accordance with Section 6.2. Modification Based on Refuse Rate Index, of the Franchise Agreement between the City of Brisbane and Recology Brisbane for the Collection and Disposal of Recyclable Materials. Organic Materials, and Solid Waste in the City of Brisbane. If approved, the change will take effect on July 1, 2016.

The proposed rate adjustment is an increase of 2.31% to the current uniform commercial rate schedule. Table 1 details the calculations:

Additionally, we would like to inform you of events that are anticipated to result in an increase in our cost of providing services under Section 6.3, Extraordinary Items, but that will not be included until next year's annual notice of intent to modify rates.

On August 4, 2015, the State Water Resources Control Board (SWRCB) adopted Order WQ 2015-0121-DWQ, entitled "General Waste Discharge Requirements for Composting Operation" (General Order).

The General Order is a comprehensive regulation covering all aspects of composting operations relating to water quality. It includes detailed requirements regarding waste discharge amounts and characteristics; volume, types and quality of feedstocks, additives and amendments; infrastructure siting, design, construction and maintenance; site closure; monitoring and reporting; regulatory fees; and other aspects of facility operation.

All major compost facilities in the State of California will eventually be required to comply with the General Order, unless the facility's Regional Water Quality Control Board (RWQCB) determines that a site-specific order regarding waste discharge requirements (WDRs) is necessary, in which case site-specific WDRs will be developed. Site-specific WDRs are expected to be modeled on the General Order.

In the case of Recology's composting facility, Blossom Valley North (BVON), the Central Valley RWQCB is requiring that BVON have site-specific WDRs. Once approved, BVON will then have a period of time to come into compliance.

Recology is continuing to evaluate the infrastructure improvements and operational changes necessary for BVON to comply with the General Order (and by extension with the expected requirements of the site-specific WDRs).

Additionally, on January 15, 2016, Recology ceased landfilling at Waste Management of Alameda County's Altamont Pass landfill and began landfilling at Recology's Hay Road landfill. As a result, Recology is now incurring additional costs in the form of transportation and disposal charges.

Both the new landfill costs and organic compliance costs will translate into higher costs for disposal and composting the City's material, and consequently higher operating costs for Recology Brisbane. To compensate for these costs, Recology intends to apply for a rate adjustment under its franchise agreement with the City during next year's rate notice of intent to modify rates, and include appropriate documentation to support the cost increases, including additional details about the compliance measures, costs and schedule, and the method of allocation.

At this time next year, we look forward to working with the City of Brisbane in a cooperative and transparent manner so that you fully understand the cost impacts. We are happy to answer any questions, participate in council study sessions, and to assist with the City Council approval process as required. Please contact me if you have any questions.
