

City of Brisbane

Staff Report

To: Mayor & City Council

From: City Manager

Date: October 28, 2016

Subject: Consideration of Appointing a City Council Ad-hoc subcommittee to review and draft letter(s) to the Federal Aviation Administration regarding flight procedures

Background

At the October 20th Council meeting there was discussion of a variety of airport noise concerns.

Council requested that on the next agenda there be an item to form a subcommittee.

Subsequent to the meeting on the 20th, Councilmember Lentz as the Cities representative to the SFO Airport Roundtable, along with Councilwoman O'Connell, met a group of Brisbane residents to review recommendations on a letter to be reviewed at the November 2nd Airport Roundtable meeting.

The result of that meeting is not known at the time of drafting this memo but will be reported out by Mayor Lentz.

It may be that further correspondence with the FAA is necessary so an Ad-hoc committee may be appropriate. Council is asked to consider such appointment.
