

Madison Davis

Occupation: Incumbent City Council Member

As a lifelong resident, I am fortunate to call Brisbane home. In my childhood, I attended Brisbane Elementary School and Lipman, participated in Brisbane Dance Workshop, and learned to be a steward of San Bruno Mountain and the lagoon. I graduated from San Francisco State University with a B.S. in Business Administration. Today I am a council member and CEO of The Brisbane Chamber of Commerce.

As a former Silverspot Co-Op Nursery School aide and former Brisbane Dance Workshop board member, I understand the importance of keeping Brisbane safe, creating constructive outlets for youth, and providing services for families. During my tenure on the Brisbane City Council and the Brisbane Parks and Recreation Commission, I improved the city's programming, services, and facilities while striving to keep our Brisbane traditions relevant for future generations. I brought the LUNAFEST Film Festival to Brisbane, using it to raise \$119,000 for the Brisbane Lions Club scholarship program in four years.

I have demonstrated the ability to work collaboratively with our city's staff and my colleagues. I advocated for Brisbane at the county and state level, incorporated citizen feedback into decision-making, maintained an open mind when deliberating, and developed solutions that appealed to many. I listen to understand, not respond, which has enabled me to embrace new ideas and viewpoints. These skills will continue to aid the council as we navigate the Baylands specific plan process, fight for Brisbane's interest with California High-Speed Rail, and determine the future of the Quarry.

The Baylands is ripe with opportunity. I envision a development that harnesses innovative technology and planning techniques to create a sustainable community that embodies Brisbane's small-town charm. I will advocate for extensive transportation and trails, engaging parks and open space, revitalized wetlands, and a thriving retail district. I will hold Baylands Development Inc. and regulatory agencies accountable, demanding the highest remediation. Ultimately, I want the Baylands to be safe, reflect our values, and incorporate the vision of residents.

However, the future of the Baylands and Brisbane's entrance hangs in the balance. If California High-Speed Rail gets their way, we will have a massive maintenance yard that brings light, noise, and blight, not our desired development.

At this time, it is crucial to elect someone with extensive knowledge of the issues. I have studied thousands of pages of reports during my terms on the council in preparation for upcoming deliberations and advocacy. With your support, I will continue to make Brisbane a special place to live. I would be honored to serve again and respectfully ask for your vote.
