Subject: Water Aerobics - Brisbane Pool

Hi,

I am writing to let you know how much the water aerobics class at the Brisbane pool means to our community. For many of us, it's a wonderful opportunity to get low-impact exercise in a comfortable environment. I have been attending the class for years and have noticed a physical and mental improvement after attending the classes. There is really something special about that pool and many of us rely on it for a part of our overall well being.

I urge you to continue to support the class and to keep it affordable for all of our community members.

Thank you,
Kalie
