**Subject:** Pool fee increase

Greetings, I am a regular member of the water aerobics class at your pool. I have very much enjoyed the pool and the classes. Your staff is very reliable and friendly and the class has been priced reasonably for having a teacher.

I am not aware of how much you are thinking of raising the class. However, there is a point at which time it could pose a problem. I am a senior and the class is more than just a good time, which it also is. It is pretty much a physical life saver for my joints. I would encourage you to keep the fee as reasonable as possible so we all can continue to come there.

Thank you, cheri
