

January 17, 2024

Dear Mayor and Council Members:

During a recent Brisbane City Council workshop you invited our community to share what is important at meetings during public discussion.

We are requesting that the following election topics be agendaized, so they can be researched by City Staff, discussed by the City Council, and have public input and discussion.

1. Term limits for elected officials
2. District elections so that selection of council members will represent all areas
3. Election citywide of Mayor

Many California cities have moved to one or a combination of all three of the election processes, as their communities have determined enough value to move forward with the transition.

The "Ask" is simply to put it on the City Council agenda, to provide our community with a platform, so we as a community can work together to determine what is best for us.

We look forward to having this on the agenda so Brisbane can continue to move forward with new ideas, increased representation and accountability for the benefit for all in the Community.

Thank you for your consideration.
