Subject: Adult water aerobics fees...

Dear Brisbane Council Members:

I am writing to urge you to consider how important the adult water aerobics program is for mostly senior residents, such as myself, and why it is important to not raise fees in the near future. First, most senior residents are on a fixed income and have suffered through massive increases with all utility bills, rent, food, repair costs, etc. 2. Fees have already increased since the pandemic by several dollars. 3. The fee structure is already quite high compared to other water aerobics classes I have attended in both Pacifica and South San Francisco, when our pool was closed for repairs. Lastly, please consider the fact that good senior, citizen, and elder health will save expensive emergency services and healthcare costs.

Thank you for your consideration...

Sincerely,

Peter Sutherland
