

Late December/Early January Winter Storm Recap

The storm that swept the Bay Area on New Year's Eve is one that had some in town recalling the big storm of 1982. But rather than 7 ft. of water in the downtown area where the Community Park is, thick layers of mud had gathered at the "5 points" intersection, the result of two separate mudslides: one from near the top of Buckeye Canyon, and the other from above Firth Canyon.

Not seen by as many people, the Buckeye Canyon event first clogged the inlet to a major corrugated metal pipe on Old Quarry Road that sent the debris flow in three different directions:

1. The intersection of South Hill and the quarry access driveway, which became filled with 5' of mud.
2. Crocker Park Trail at South Hill, which overflowed for 850 feet. The debris then went across Integrated Resources' parking lot, into Valley Drive, and then headed east all the way to City Hall.
3. Debris followed Old Quarry Road for approximately a half-mile (2,590 ft.) into the heart of the community, where it then flooded San Francisco Avenue at the Senior Center and across to the Community Park. This flow also travelled 1,120 ft. down Old County Road, stopping just short of the driveways leading into the Brisbane Village Shopping Center.

What many residents did see was the break that resulted in the mudslide down from Firth Canyon. This event roared into the community and caused major damage to the house at 950 Humboldt, which resulted in the resident being evacuated and the home red-tagged. The water, mud, and trees then travelled over a quarter-mile (1,350 ft.) down Glen Park Way, including across all of Firth Park, and then 2,050 ft. down San Bruno Avenue to the same "5 points" intersection.

Motorists were also impacted by lane closures that morning, and in the case of Bayshore at Industrial, a total lane closure was needed as the storm intensity and high tides became concurrent. Tunnel Avenue flooded around this same time, resulting in multiple cars flooding and becoming trapped.

There was also significant flooding in the lower elevations of the community, such as Tunnel Ave. from Beatty to Lagoon Way, and the Public Works Corp Yard, which flooded several feet deep around the front of the building. Brisbane's official rainfall count on NYE was 6.76"!

The City's Office of Emergency Services needed to utilize SMC Alert on NYE twice to warn residents about Brisbane roadway conditions, request residents to stay home and avoid driving, and thank those helping to clear clogged catch basins. Please sign up for SMC Alert if you haven't already at: smcalert.info.

Not surprising, additional staffing was needed in the City's public safety departments – Police, Fire, and Public Works. The Brisbane Police Department brought in extra officers on overtime to address the call volume that came in during the storm (48 calls on NYE alone), North County Fire Authority activated their Emergency Command Center on New Year's Day, and Public Works called in all Operations & Maintenance personnel (except for those out of area or quarantined with COVID-19). This mandatory call-in included three employees with minor physical ailments that were assigned to supervisory/administrative duties to assist the rest of the team.

As the storm intensity increased across the weekend, multiple contractors were called in to assist - Kingdom Pipelines, Brisbane (formerly Humboldt) Tree Service, and Mike Glynn Construction Services. All three played critical roles in recovery.

A graphic with a background of orange and yellow flames. At the top, a yellow box contains the text "Get emergency alerts from the City of Brisbane". Below that, a larger yellow box contains "SMC ALERT" in bold black letters. Underneath, another yellow box says "San Mateo County Alert System". At the bottom, a yellow box says "Sign up at: smcalert.info". A QR code is located at the bottom center of the graphic.

Following the NYE storm, the Parks & Recreation Department extended an offer of support to the Public Works team towards recovery efforts. Starting on New Year's Day, full-time and part-time recreation staff assisted with clearing mud and debris from City streets and sidewalks, making sandbags, clearing storm drains, positioning trail closure signage, assessing damage to facilities, and providing short-term repairs. Staff also made individual phone calls to conduct welfare checks on homebound elderly residents to ensure they were safe and taken care of. Lifeguards, after-school program staff, preschool teachers, facility attendants, and senior services staff all played a part in these efforts.

The City Manager's Office joined numerous Operational Area calls hosted by the County's Office of Emergency Services, at times 3x/day, many of which included meteorological updates from the National Weather Service. They also coordinated nearly 40 volunteers to help fill sandbags over the course of two weeks, which freed up Public Works crews to address needs in the field and calls for service. Regarding the home on 950 Humboldt that sustained significant damages from the Firth Canyon mudslide, staff in the City Manager's Office is working with local organizations to provide the resident with housing/rent assistance and have submitted her property to the County's Office of Emergency Services in order to try and receive State or local aid.

In the second major storm on Wednesday, January 4th, where 1.3" of rain fell overnight between the 4th & 5th, the majority of residents in Central Brisbane experienced a 3-hour power outage that began just before 5pm. On the 900 block of Humboldt, a tree fell from private property above the retaining wall, which then hit PG&E's lines and brought down a power pole. Two cars were impacted, but fortunately, no injuries were reported. Residents in this area of Humboldt were without power for approximately 27 hours, with PG&E crews working as quickly and as safely as possible to restore power.

The third major storm brought down another tree on the 200 block of Humboldt, falling over a parked truck which needed to be totaled, but thankfully no one was hurt. This downed tree resulted in a near City-wide power outage that started at 2am and lasted most of Tuesday morning. The holiday tree also didn't sustain the gusts, and was removed later on in the week when there was a break in the rain. Note: the holiday tree was set to be removed after January 6, or Epiphany, which is 12 days after Christmas in the Gregorian calendar and marks the end of the Christmas holidays...but, like many other things, the weather got in the way.

Throughout this time, the town's community spirit has been on full display, with many out on New Year's Day and in the days that followed helping to clear storm drains and catch basins, shoveling mud onto the sidewalks and out of their neighbor's driveway, and signing up to fill sandbags at the Public Works Corp Yard (2,000 were filled in a span of just 2 days, with another 400 on January 12th)! And there is a bright side to all this wet weather; as of January 17th, we are over our normal season rain figure (21.57" vs. 19.64") and no parts of California were in an "exceptional drought", as was the case for 17% of the state three months ago.

The storm inlet for water flow from Buckeye Canyon has been cleared, and the City will continue to work on cleanup, but this will be a long process. It could be up to 90 days for complete recovery. In the days and weeks to come, Public Works will also be inspecting the City's lines and making any needed repairs. If you would like to put in a call for service on City property, please complete a My Brisbane request at brisbaneca.org/contact or call the Public Works Department at: (415) 508-2130.

Lastly, we know that with the recent parade of storms, tree removals have become a hot topic. Before you begin to remove a tree from your property, please consider the following. The Brisbane Municipal Code (BMC) Chapter 12.12 contains the City's tree removal provisions and here are a few highlights:

- Certain trees are protected, either by species or by permit conditions, and require an application prior to their removal. Generally, these require one-to-one replacements.
- Some trees, such as invasive species, are non-protected, but still require a 7-day notice to the City prior to their removal. (continued on next page)

photos, and a description of the hazard will be required. If the concern is regarding a tree that is in the public right-of-way, contact the Public Works Department at (415) 508-2130. Such trees are City property and only the City can remove them.

For more information on tree removal provisions and permitting, please refer to the City's Tree Removal and Landscaping webpage, brisbaneca.org/tree-removal-landscaping.

The City recognizes that emergencies arise and if the condition of a tree presents an immediate hazard to life or property, it may be removed without the 7-day notice or a permit. First, for such cases, please contact the Community Development Department during office hours at (415) 508-2120 or planning@brisbaneca.org or the Police Dept. at (415) 467-1212, after hours, to apprise us of the situation and get approval for its immediate removal. To obtain approval for emergency removal, information such as the tree species,

AYSO Fall 2022 Wrap-Up, and a New Season Soon Begins!

Brisbane AYSO youth soccer wrapped up an exciting fall 2022 season with a record number of players enrolled. 199 players (that's 22 teams!) were on the field this fall, building their soccer skills and having fun with their teammates. Five of Brisbane's 10U, 12U, and 14U teams advanced to the area playoffs on a VERY RAINY weekend in early December, where they faced off against teams from San Bruno, Millbrae, Pacifica, and Daly City. All the teams played with amazing enthusiasm and determination despite the rain and mud! A HUGE thank you to all the volunteer coaches, referees, schedulers,

board members, and local sponsors without whom AYSO soccer in Brisbane would not be possible.

Sign-ups for fall 2023 soccer start in April/May – look out for open registration information on brisbanesoccer.org or email brisbaneayso@gmail.com if you have any additional questions. See you on the field in late August!

M.O.B. Shop

Friday 2/10/2023 from 12PM-5PM
Saturday 2/11/2023 from 10AM-3PM
@ Mission Blue

Come and shop for gently-used clothing for kids and adults! All proceeds will benefit the Mothers of Brisbane, a local 501(c)(3) and non-profit.

IDEA Committee Approves Administrative Policy for Flag Display Procedures Along with a Flag Display Schedule

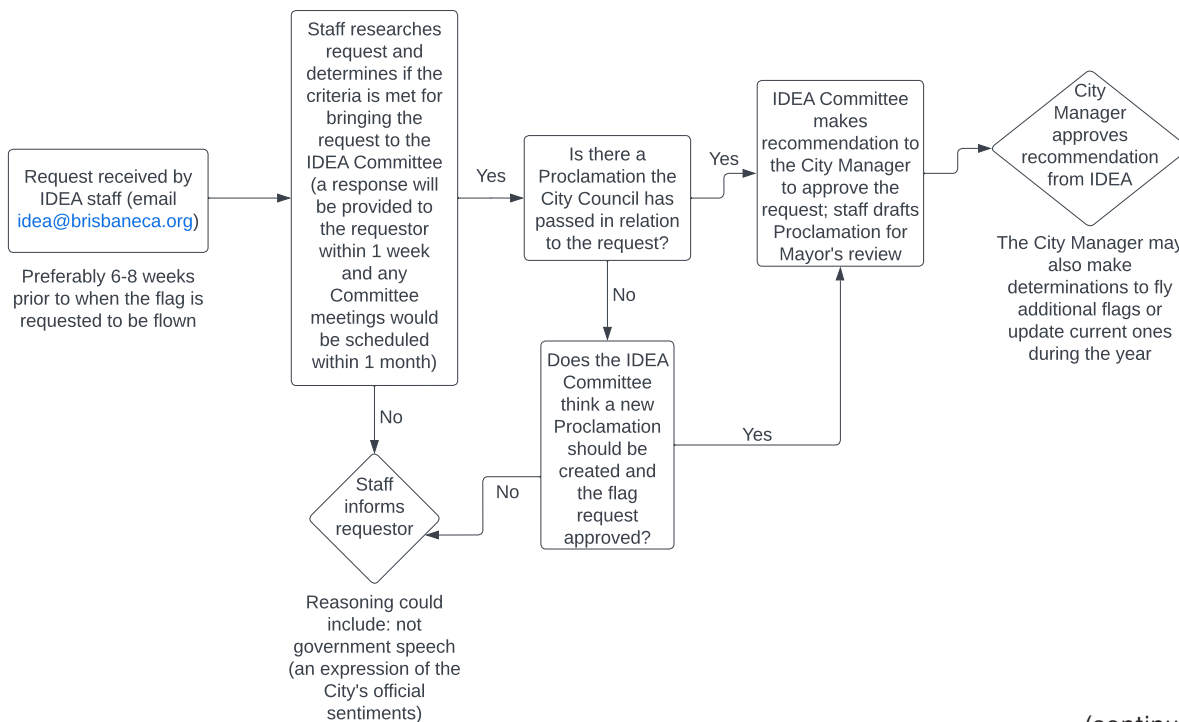

IDEA Committee Members Nida and Oseto at the Día de los Muertos Celebration that took place at the Brisbane Library on October 30, 2022.

At their January 19th meeting, the IDEA Committee approved an administrative policy for displaying flags at City Hall and the Community Park. The Committee started this conversation last October, after resident Calvin Lee reached out to the City Manager to state that the mainstream media hadn't been spotlighting hate incidents against Asians as they had the year before, despite them still happening, and proposed a flag that prominently stated "Stand with Asians" be flown at the Community Park. The City Manager recommended Mr. Lee discuss this further with the IDEA Committee, which he did at the October 19, 2022 IDEA Committee Meeting. The IDEA Committee brainstormed short- and long-term solutions for displaying additional or commemorative flags in the city at their November and December meetings as well.

The short-term process would entail the City Manager being advised by the IDEA Committee for any flag requests that come through. This would allow for greatest expediency and to address any significant timeframes related to the flag that's being requested. The long-term process would entail a potential Peace Park at Sierra Point, which could be included as part of the Sierra Point Parks and Open Space Master Plan, and where a group of flag poles could be installed in that space for an interactive art installation/monument.

In order for residents to be fully aware of the process for submitting a flag, the IDEA Committee felt that a flow chart would help, which is shown below:

An annual schedule was also approved, pending a few updates to show clearly which poles would display which flags, and on which date(s). That schedule, along with the full administrative policy, can now be found on the IDEA Committee's webpage on the City's website, brisbaneca.org/idea. If you have any questions or comments after viewing this information, please feel free to reach out to IDEA staff liaisons Caroline Cheung and Ingrid Padilla using the email: idea@brisbaneca.org.

Ticks are Out – Avoid their Bites!

We are in peak months for adult western black-legged tick activity in San Mateo County. The San Mateo County Mosquito and Vector Control District has seen no evidence of a higher risk of tick-borne disease in San Mateo County compared to previous years; however, ticks are present and the diseases they transmit can be very serious.

Avoid ticks by following these tips:

- Use an EPA-registered repellent. Several different active ingredients, including DEET and picaridin, are effective against ticks. Some are for use on skin, and others are for use on your clothing. Read the label before applying.
- Wear light-colored clothing so you can see ticks before they bite.
- Stay on the trail while hiking.
- After hiking - Check yourself, your kids, and your pets. Take a shower and check all over...especially on the scalp, behind your ears, around the waist, and other places ticks like to hide. Dry your clothes in a clothes dryer to kill ticks.

If you find a tick on you:

- Remove carefully using tweezers to grab the tick close to the skin and pull up slowly and firmly.
- Do not crush, burn, or smother the tick.
- Wash the site of the bite after removal.
- Consult a doctor if you can't remove the tick, or if a rash or fever develops.
- The District does not perform tick testing on ticks that have bitten people or animals; testing is not recommended in most circumstances.

District staff can identify ticks and answer your questions about ticks. For more information on ticks in San Mateo County, visit smcmvcd.org/ticks.

Adult western black-legged ticks are most active in the wet months from December through March.

HOW WELL DO YOU KNOW THE CART FAMILY?

The Cart Family consists of three anthropomorphic trash carts. Ozzy is a dark green cart holding a pizza box. Rita is a blue cart holding a newspaper and a bottle. Gus is a grey cart holding a bag of trash. They are all smiling and holding their respective items.

Ozzy the Organics Cart craves yard trimmings, food scraps and food-soiled paper. Plastics make him sick.

Rita the Recycling Cart keeps clean, dry paper under her light-colored lid, and empty recyclable containers under her dark blue lid.

Gus the Garbage Cart takes what Ozzy and Rita won't—as long as it's not liquid, hazardous, or too big to fit.

You can join public meetings live via Zoom, or view the livestream on the City's YouTube channel: youtube.com/brisbaneca. The City Council and each Commission and Committee have their own custom URL redirect (that's easier to remember) for you to join as an attendee. The URLs are also listed on the meeting agendas, found at: brisbaneca.org/meetings.

- City Council: brisbaneca.org/cc-zoom
- Complete Streets Safety Committee: brisbaneca.org/cssc-zoom
- Inclusion, Diversity, Equity & Accountability Committee: brisbaneca.org/idea-zoom
- Open Space and Ecology Committee: brisbaneca.org/osec-zoom
- Parks & Recreation Commission: brisbaneca.org/pr-zoom
- Planning Commission: brisbaneca.org/pc-zoom
- Public Art Advisory Committee: brisbaneca.org/pa-zoom

Note: the URLs will also work in March 2023 when the City Council, Commissions, and Committees start having hybrid meetings.

Brisbane Library Calendar – January 2023

SPECIAL EVENTS

Saturday, February 4 at 2pm – Urisawe-Korean Dance Performance

Come join us at San Mateo County Libraries and celebrate Lunar New Year with Urisawe. The Korean Cultural Center Urisawe will perform traditional Korean dances, such as Fan Dance, Chwitadae (Korean traditional marching band), and Nanta (Korean traditional drumming). They will also have a workshop to teach us some dance movements from the Bongsan Mask Dance.

Tuesday, February 7 at 6pm – Healthy Living for Your Brain and Body

Join us to learn about research in the areas of diet and nutrition, exercise, cognitive activity and social engagement, and use hands on tools to help you incorporate these recommendations into a plan for healthy aging. Presented by the Alzheimer's Association.

Wednesday, February 22 at 3:30pm – Paws for Tales

Do you have a reluctant reader? Sign your child up for a 10-minute session to practice reading with a therapy dog at the library. We'd like to thank our partners for making this possible: Pet Assisted Therapy teams and their handlers from the Peninsula Humane Society & SPCA's Paws for Tales program. Registration is required, and space is limited, so register early at smcl.org/events

Keep an eye out for more fun events that we're planning to bring to Brisbane Library at smcl.org!

RECURRING EVENTS

Tuesdays at 1:30pm – Family Storytime

Come along on an imaginary adventure for Family Storytime. Hear new stories, sing songs, and learn wiggles that the whole family can enjoy together, from toddlers to grown-ups.

Thursdays at 11:30am - Baby Bounce and Rhyme Time

Bring your bouncing baby to our weekly playtime, full of nursery rhymes and songs you can do together to stimulate your baby's development. Ideal for newborns up to 18 months old.

Monday, February 6 at 11am – Yoga

Interested in learning how to do yoga or already have a practice, and want to join others in your community? Please bring your own towel or mat. Register at smcl.org/events

Wednesday, February 8 at 11am – Tai Chi

Learn about the Chen-style Taijiquan (Tai Chi) form, Silk-reeling Exercises and Wuji Qigong. Chen-style Taijiquan is widely acknowledged as the ancestor of all other styles of Taijiquan.

POWER UP AFTERNOONS

Join us for Power Up Afternoons! We have fun drop-in experiences available for kindergarten through high school students every day after school. Take a study break to relax with free-form art or experience hands-on STEAM activities.

Mondays from 3-5pm – Calm Corner

Study with your buddy or take a brain break in this calm corner of the library.

Tuesdays from 3-5pm – Game On

Solve a lockbox Challenge, puzzles, board games and more.

Wednesdays from 2:30-4:30pm – Art

Come explore process-based arts and crafts materials to make something beautiful. All you need to bring is your creativity!

Thursdays from 3-5pm – Lego Club

Design and create from your imagination at Lego Club!

Fridays from 3-5pm – What Will You Create?

Ease into the weekend with a fun, creative activity.

Please note the Brisbane Library will be closed Sunday, February 19, 2023 - Monday, February 20, 2023 for Presidents' Day.

Housing Element Update!

On January 12th, the Planning Commission provided a recommendation to City Council to self-certify and adopt the draft 2023-2031 Housing Element (Housing Element). **The Housing Element is now scheduled for a public hearing at City Council on February 2, 2023, at 7:30 pm, for adoption and self-certification. The meeting will be held as a hybrid meeting, allowing for public participation virtually via Zoom and in person at City Hall.** Visit brisbaneca.org/meetings after close of business on Friday, January 27th to read the agenda report and for information on how to participate in the meeting.

City Council previously reviewed the draft Housing Element in October 2022 and directed that it be submitted to the California Department of Housing and Community Development (HCD) for an initial 90-day review period, and HCD provided comments to the City on January 4th. The City is working to address those comments by the February 2nd hearing. Per State law, cities in the Bay Area have until January 31, 2023, plus a 120-day grace period (or May 31, 2023) to have an HCD-certified element.

The adopted Housing Element will be submitted back to HCD for further review and their certification of compliance with state housing element law. If HCD has follow-up comments, they would be addressed as an amendment to the Housing Element, subject to additional public hearings at both the Planning Commission and City Council.

If you have questions or comments, please use the Community Development Department's Contact Form at brisbaneca.org/CD-Contact-Form, or mail your questions or comments to: Community Development Department, City of Brisbane, 50 Park Place, Brisbane, CA 94005. For a comprehensive overview of the Housing Element update process, including links to prior public meetings and workshops, and to sign up for notifications of Housing Element updates and public meetings, please visit brisbaneca.org/housingelementupdate.
