

### Housing Element

The 2014 Housing Element was adopted on April 2, 2015 and covers the 2015 to 2022 planning cycle. It has been certified by the State Department of Housing & Community Development (HCD) as meeting all requirements of State law. The Housing Element contains 79 programs, many of which are implemented or ongoing. Table 1 and Figure 1 below offer a snapshot of the Housing Element implementation progress while Appendix A provides the complete breakdown of the implementation progress and housing entitlement and construction approvals for the 2022 calendar year.

### Regional Housing Need

The City is required to report certain housing information in accordance with State Housing Element Law (Government Code Sections 65583 and 65584) and the State HCD's guidelines for reporting the City's progress toward meeting its regional housing needs. The Association of Bay Area Governments has adopted a Regional Housing Needs Allocation (RHNA), pursuant to Government Code Section 65584, for all jurisdictions within San Mateo County to provide housing for the projected population growth within the region. Brisbane's share of the regional housing need was allocated at 83 new housing units for the 8-year period between 2015 and 2022, including 15 units affordable to moderate-income households, 13 units affordable to low-income households, and 25 affordable to very-low-income households.

At the end of the eight-year, 2015 - 2022 Housing Element planning period, Brisbane has met 72% of its RHNA. Brisbane's progress in meeting RHNA and its unmet RHNA need at the end of 2022 is shown in Table 2. Table B of Appendix A indicates the number of building permits issued by income level from 2015 - 2022.

**Table 2: 2022 Progress in Meeting Regional Housing Needs 2015-2022**

### Accessory Dwelling Unit Affordability

A study conducted by the Association of Bay Area Governments (ABAG) from September 2021 found that ADUs are rented at a variety of rates and often meet lower income affordability requirements based on the incomes of the occupants and/or their rental rates. The study found that a Bay Area jurisdiction can, conservatively, use 30% very low, 30% low, 30% moderate and 10% above moderate for ADUs. While the State has not officially approved the conclusions of this study, it has agreed that jurisdictions can allocate ADUs towards a range of income levels. Table 3 shows Brisbane's progress in meeting RHNA and its unmet RHNA need at the end of 2022 utilizing the study's recommended affordability level for all ADUs permitted during the 2015-2022 planning cycle. Notably, the City is much closer towards meeting its very low- and low-income housing needs when utilizing the study's recommended affordability levels and it also results in a lower remaining need at the end of the planning cycle.

**Table 3: 2022 Progress in Meeting Regional Housing Needs 2015-2022 utilizing 2021 ABAG Study on ADU affordability**

Income Group	Regional Housing Need 2015-22	Need Met thru 12/31/22	Remaining Need at end of 2022	% of 2015-22 Regional Housing Need Met
