

CITY COUNCIL AGENDA REPORT

Meeting Date: March 4, 2021

From: John Swiecki, Community Development Director

Subject: 2020 Annual General Plan and Housing Element Progress Reports

Community Goal/Result

Community Building

Purpose

To comply with reporting requirements of State law.

Recommendation

Direct staff to submit the 2020 General Plan and Housing Element Annual Progress Reports to the California Department of Housing and Community Development (HCD) and the Governor's Office of Planning and Research (OPR).

Background/Discussion

Per Government Code Section 65400(a)(2)(A) the City is required to prepare an annual report to the State on the City's progress in implementing the General Plan. The State-mandated General Plan (GP) Annual Progress Report (APR) provides information regarding the City's progress in meeting the community's goals through implementation of the GP.

The City is also required to prepare an annual report to the State on the City's progress in implementing the Housing Element (which was adopted April 2, 2015), using the format adopted by HCD. Government Code Section 65400(a)(2)(B) requires that the City hold a public meeting on the report before submitting it to HCD and OPR by the April 1st deadline.

General Plan APR

Unlike the Housing Element APR, the State does not prescribe a specific report format and cities are advised to highlighting measures associated with the implementation of the GP, such as GP and Zoning Ordinance amendments, policy actions by the City Council, Citywide initiatives, and City-initiated projects.

As detailed in the attached report, in 2020 the City initiated a number of actions implementing the General Plan that include:

- General Plan updates concerning the Baylands
- Zoning Ordinance amendments regarding short term rentals and accessory dwelling unit regulations
- Approval of projects or programs related to commercial building sustainability, recreational improvements, and financial housing assistance

- Held community meetings involving the master planning of Crocker Trail
- Completed or began civic improvements to existing infrastructure

Of the 185 GP programs (excluding Housing Element programs that are reported under the Housing Element APR), 155 have been implemented or are ongoing programs implemented on a continuous basis. Another 25 programs are either partially complete or currently underway, while five programs have not commenced.

Housing Element APR

Historically, State-mandated Housing Element annual reports have tracked the number of building permits issued for housing units in a given calendar year towards Brisbane’s Regional Housing Needs Allocation (RHNA), as well as an update on the implementation status of each Housing Element program. Changes in State housing law require the City to submit additional data not required in past years, including Local Early Action Planning (LEAP) Reporting and a list of locally owned or controlled lands declared surplus or identified as excess pursuant to Government Code sections 54221 and 50569, respectively. Thus, the attached report contains more information than in previous years in accordance with the provisions of State law.

As detailed in the attached report, in 2020 the City approved planning permits for six moderate income units, building permits were issued for two moderate income units and one above moderate income unit, and 94% of the Housing Element programs have been completed or are implemented on a continuous basis. The City is six years into the eight-year (2015- 2022) Housing Element planning period and has met 46% of its RHNA, with all production within the moderate or above moderate income categories. No building permits have been issued for low or very low income units during the current Housing Element planning period.

Fiscal Impact

None.

Measure of Success

Submittal of the 2020 General Plan and Housing Element Annual Progress Reports to HCD and OPR within the deadline prescribed by State law.
