Happy Holidays

Almost another year gone—where did it go?! It feels like this year has flown by, and what better way to sign it off, than to spend a month full with holidays, gatherings, food, family and friends to celebrate it with...Tis the Season!

With the holidays, comes festivities in the surrounding areas. Take a moment to visit and participate in some of the following events coming up:

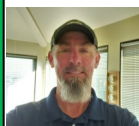

- * **Sunday December 5:** the 35th Annual Festival of Lights will be held in Brisbane. To get more information on this event, please visit the City's website at: <https://www.brisbaneca.org/parksrec/page/festival-lights>.
- * **Saturday December 11:** Sierra Point Yacht Club is hosting their annual Lighted Boat Contest. All boats are welcome to participate, and there's no cost to enter—simply decorate your boat and judges will come by your boat starting at dusk to view your decorated splendor. More on this event at SPYC's website: <https://spyc.clubexpress.com> Hope to see many boats participating in this fun and festive event.

In observation of the holidays, the Marina Office will be closed the following dates:

- Friday December 24,
- Saturday December 25,
- Friday December 31,
- Saturday January 1

Heaving towards essential housekeeping tidbits:

- * Current registration—California State registered vessel fees are due before 12/31/21 for your '23 tags. Current tags must be properly displayed on your vessel at all times, and a current copy of your registration provided to our office for file.
- * Dock lines—they're not important, until they're important! By the time you get to the second part of that statement, it's too late. Check your dock lines and make sure they're in good condition and can withstand the strain they will encounter during a storm or wind event.
- * Our restrooms which are locked and marked "Private", are for marina clients only. Do Not pass out your gate fob, hold the door open, or allow access to someone who is not a client here. Anyone who belongs within the marina or restrooms will have the ability to unlock the door or gate on their own.
- * Marine Sanitation Devices (MSD), types I, II and III are required to pump into a tank onboard, the overboard thru-hull must be secured in the closed position, and the tank pumped out through a land based pump station. Our pump out is conveniently located at the head of dock 1, or you can stop by our office to get a brochure on other stations located in the Bay and Delta regions. Please help keep our waterways clean for everyone to enjoy.

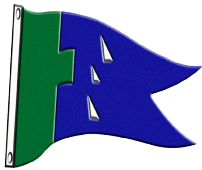

We wish you, your family and friends a Merry Christmas and Happy New Year!

Andrew Rehberg - Harbormaster
