Now Available in the Marina Office

Spring Forward

Spring feels as though it had arrived, and then disappeared just as fast with rain and wind coming back. However, it doesn't change Day Light Savings going back into play on March 10. And with Day Light Savings, our marina office will also go back to being open 7-days a week. A reminder of our spring/summer office hours:
Mon– Sat 8am-5pm, and Sun 8am-4:30pm.

Did you notice the new additions by the office door? If our office is closed for any reason and you're looking for one of the popular publications we typically carry inside (Latitude 38/Bay and Delta Yachtsman/Yachts for Sale), or you're looking for a slip application/pricing, you can conveniently find them hanging in our recently installed document holders just outside our office door.

Another little tid-bit that may peak your interest, we're working on transitioning our marina software system to a new provider which will allow us to offer an online payment portal for your slip fees. As we get closer to rolling out the new system, we will send out an update.

Paying out line to catch some friendly reminders and other suggestions:

- * **Parking Permits:** need to be prominently displayed on the back right bumper or back right window of your vehicle. Permits are only for non-commercial passenger vehicles, owned by slip clients, and are not for storing vehicles on-site.
- * **Dock Lines:** Your power cord is not an adequate or suggested dock line. Please take a moment to check dock lines, especially after the frequency and strength of recent wind events. We may be seeing some nicer, sunny weather lately, however the summer months are surely going to test the dock lines for a couple months with the traditional wind patterns here in Brisbane.
- * **Fenders:** did you know, Taylor Made still offers lifetime warranty on their brand of fenders? If you, or a fellow boater, are getting ready to toss out your old, crusty fenders that don't hold air any longer, check if they're Taylor Made first.
- * **Have you ever drug anchor?** It's a horrible feeling, especially if you're not aboard the boat when it's happening. Having proper ground tackle is important regardless if you're wanting to anchor for lunch, or for a few nights. Found on the Boat US website, they recommend 2-4 times your boat length in chain being attached to the rode. Additionally, if you're anchoring in 10' of water, and your bow is approx. 5' above water, you would want to pay out at least 75' of chain/rode for a lunch hook (5 x (10' depth + 5' bow)) and longer lengths for overnight or rougher weather conditions. For more information on safe anchoring and other suggestions, please take a moment to visit Boat US at:

www.boatus.com/expert-advice/expert-advice-archive/2021/june/how-to-anchor

Until next time, batten down the hatches and stay dry!
