2020 Tide Tables are now
available in the marina office

We Go Where the Wind Blows!

Start the engines, cast off the lines and head out to your favorite socially distant location! We have had nothing short of spectacular weather lately, and your boat is begging to get out of the slip.

Yes, boating is technically a social distancing activity, as long as it's with people from your immediate household. However, please maintain your social distance when coming and going from the marina, should you happen to encounter other boaters on the docks or parking lot. We haven't made it out of the woods yet.

**SAN MATEO
COUNTY HEALTH**

All together better.

Speaking of not being out of the woods, the Shelter in Place was just extended, as of 4/29/2020, and will continue through the month of May. The updated order, c19-5c (Revised), can be found on San

Mateo County's website with further information on what restrictions stay in place, and what items are being loosened up. The web address where more information can be found is:

<https://www.smchealth.org/post/health-officer-statements-and-orders>

The marina office will also be returning to normal operating hours, effective Monday May 4, 2020, however the front door will still be locked to public access until further notice. We can still be reached by phone or email, should you have any questions, need to pay your slip fees, or would like to apply for a new slip. That said, please stay safe and healthy.

Switching gears to marina biz:

- ◆ For the safety of you and others, along with the security of the marina facilities and vessels moored here, **DO NOT** prop open any gates or doors at any time, and please make sure the gates close securely behind you.
- ◆ Dock carts are provided as a convenience to all marina clients. With limited carts at each dock, please make sure to return the cart to the head of the dock immediately after you have finished using it.
- ◆ Garbage, cardboard and container recycle bins are provided throughout many locations within the marina. Please help us by taking the time to separate your garbage and recyclables into the properly labeled bins. And do not leave bags of garbage or loose items next to a bin; we get high winds and do not want garbage blowing into the bay and polluting our waterways.

Until next time, stay healthy and safe. We'll all get through this one way or another, and hopefully sooner than later!
