### Happy 40th Birthday, Brisbane Marina!

This month of November 2023 marks 40 years that our great marina has been in service. The Brisbane Marina was officially dedicated by the City of Brisbane on Sunday November 20, 1983. Happy Birthday and to many more, Brisbane Marina!

Following on the heels of Halloween, and unfortunately with no candy in my cabinets aboard, we are at least consoled by what appears to be a bit of a late summer. Albeit, a tad brisk in the morning and evening, but so lovely during the day with the sun shining bright. The morning sunrises have also been nothing short of spectacular. If you happen to have had the chance to catch one or more, please email us the picture you captured of the morning sunrise over the East Bay hills. Submissions can be emailed to: [harbormaster@ci.brisbane.ca.us](mailto:harbormaster@ci.brisbane.ca.us).

Transferring to some important reminders:

- ◆ **Animals:** Dogs are to be leashed anytime they are off the boat and they cannot be left aboard the boat alone. Cats can be left aboard alone, however they cannot be left to roam the docks or property; they must stay aboard your boat.
- ◆ **In walking the docks,** I see a lot of dock lines that need some serious attention. Your dock lines are an essential piece of equipment to maintain proper attachment to the dock. Take a moment to check and replace yours if needed.
- ◆ **Bilge pumps:** They're not an exciting piece of equipment aboard any boat, but they sure are an important piece of making sure your boat has a chance of surviving if or when a water intake issue arises aboard. Check your bilge pump operation frequently. This would include also making sure the float switch, if applicable, is functioning properly and not obstructed by any wires, hoses or other debris in the bilge. It's sad that a boat can sink from such an easy and maintainable item. Please don't let your boat and investment hit bottom!
- ◆ **Wind events:** Fall and Winter are upon us soon, and that will typically bring wind at howling small craft warning proportions. Please ensure all your running rigging is pulled away from your mast to prevent clanging during a wind event, along with all items on deck are secure and won't blow off the boat and into the water.
- ◆ **Items on the dock:** For yours and others safety, do not store anything on the dock other than potentially a dock step. If items don't fit in the provided dock box or within your boat, it doesn't belong on the dock finger or head-walk.

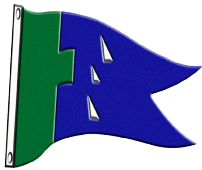

Until the next time, from all of us here at the Marina, we wish you and your family a Happy Turkey Day. Enjoy wonderful food and company!

Best Wishes ~ Harbormaster Rehberg
