Subject: FW: Genesis Marina Public Art Ordinance compliance

Public Art Advisory Committee members,

The attached PDF is being routed to you as part of a public comment that will take place at this afternoon's Public Art Advisory Committee meeting. John Evans/Phase 3 is the developer of the Genesis Marina life sciences campus at 3000-3500 Marina Blvd. and they have started to consider art installation and acquisition on-site as a means to complying with the public art ordinance. Since they do not have an item on the formal agenda for today's meeting, he would simply like to introduce himself and the project as a precursor to a future meeting agenda that allows for formal review and discussion.

Kindly,
Noreen

NOREEN LEEK | She/Her

Director, Parks & Recreation
